EDUCATION

University of Florida

Expected Spring 2028

Ph.D. in Industrial Engineering

Advisor: Dr. Jorge Sefair

University of North Alabama

2023

B.S. in Computer Science

RESEARCH INTERESTS

Integer Programming, Network Interdiction, Network Design, Geospatial Optimization, Sports Analytics

PUBLICATIONS

Working Papers

1. T. Staggs, S. Ravishankar, T. Grubescic, J. Sefair. "Route covering interdiction" *In preparation*.
2. T. Staggs, J. Sefair. "Biobjective shortest path interdiction" *In preparation*.
3. A. Saffarian, T. Staggs, S. Ravishankar, J. Sefair. "Spatial Optimization Models for Width-Constrained Wildlife Corridor Design" *In preparation*.

Published Papers

4. J. Imbrogno, J. Parnell, T. Staggs, J. Scott. "The cost of conformity: How deviating from norms increases performance potential." *Journal of Management & Organization*, 32(3): 853-868, 2026.
5. J. Imbrogno, T. Staggs. "Evaluating the Efficiency of the National Football League Betting Market by Testing the Profitability of Suggested Gambling Rules." *The Journal of Gambling Business and Economics*, 17(1): 49-74, 2024.

PROFESSIONAL EXPERIENCE

Software Engineer

May 2023–August 2024

1st Edge LLC

Huntsville, AL

TECHNICAL SKILLS

- Languages: Python, C#, Julia, R
- Optimization Solvers: Gurobi, GLPK
- Libraries & Tools: NetworkX, Shapely, Pandas, Numpy, Pyomo, Shiny, Dash

TALKS

- SOBIE 2025, Destin, FL, "A model for structural robustness in multi-echelon supply chain networks"
- INFORMS 2025, Atlanta, GA, Invited Talk, "Biobjective shortest path interdiction"
- SOBIE 2023, Destin, FL, "Evaluating allegedly profitable NFL gambling rules"

SELECTED HONORS AND AWARDS

- Dean's Research Award: Herbert Wertheim College of Engineering, University of Florida 2025
- Best Poster Presentation: Scholar's Day, University of North Alabama 2023

LEADERSHIP AND COLLABORATION

Vice President: INFORMS Student Chapter, University of Florida

2025–2026
